

**Project Requests from Rep. Wilson:**

□

□

**Alternate 20" Water Supply Main**

***City of Salem Utilities Department***

**231 South Broadway Avenue**

**Salem, OH □ 44460**

**\$600,000**

The applicant believes this is a valuable use of the taxpayers' money because the project will provide a reliable water supply to the residents of the City of Salem, Township of Perry, Village of Leetonia and the Village of Washingtonville. The total population served by Salem's water system is approximately 32,000 people.

**Beaver Creek State Park Dogwood Trail Improvement**

***Columbiana County Park District***

**130 Maple Street**

**Lisbon, OH**

**\$420,000**

The applicant believes this is a valuable use of the taxpayers' money because it will improve and extend the existing Dogwood Trail for pedestrian, cyclist and equestrian use. It will continue the 63miles of already constructed trail.

**Cherry Valley Beehive Coke Ovens Park Restoration**

***Cherry Valley Beehive Coke Ovens Advisory Commission***

**511 Columbia Street**

**Leetonia, OH 44431**

**\$350,000**

The applicant believes this is a valuable use of the taxpayers' money because the Cherry Valley Coke Ovens are the largest example of beehive coke ovens on public land in the United States. The entire site is already on both the state and national historic registries. The restoration of this site will create a museum to preserve the coke making industry's history.

### **Eastern Lawrence County Sanitary Sewer Extension**

***Lawrence County Board of Commissioners***

**111 South 4<sup>th</sup> Street**

**Ironton, OH 45638**

**\$600,000**

The applicant believes this is a valuable use of the taxpayers' money because the project will allow the County to perform needed upgrades to the Wastewater Treatment Plant in order to meet current National Pollution Discharge Elimination System (NPDES) limits for the existing treatment plant that discharges into the Ohio River. This project will allow for improved water quality of the Ohio River and its tributaries due to the ability to expand into un-served areas such as the Athalia, Miller, Boothe-Eaton and Getaway areas.

**Eastern Ohio Regional Industrial Park Water and Sewer System**

***Village of Barnesville***

**132 North Arch Street, PO Box 190**

**Barnsville, OH 43713**

**\$600,000**

The applicant believes this is a valuable use of the taxpayers' money because the project will provide water and sanitary sewers for the future requirements of an Industrial Park and will allow for extension of the system to communities north of the site in order to ensure safe, potable drinking water.

□

**Hanoverton/Kensington Sanitary Sewer Project**

***Columbiana County Sanitary Engineer***

**33395 State Route 172, PO Box 423**

**Lisbon, OH 44432**

**\$600,000**

The applicant believes this is a valuable use of the taxpayers' money because the project will provide sanitary sewer service to residents who are currently without. On-lot septic systems in the project area have been documented by the Ohio EPA as failing and resulting in the degradation of local waterways. This project serves the immediate need of eliminating the health hazard of failing on-site septic systems and also has the added benefit of providing sanitary sewer service to the area.

**Hilltop Water Storage Project**

***Village of Beverly***

**919 Mitchell Avenue**

**Beverly, OH 45715**

**\$150,000**

The applicant believes this is a valuable use of the taxpayers' money because the project will increase water pressure for the entire town, allowing for enhanced fire protection for local residents.

□

### **Historic Fort Steuben Rooftop Project**

*Old Fort Steuben Project, Inc.*

**120 South 3<sup>rd</sup> Street**

**Steubenville, OH 43952**

**\$60,000**

The applicant believes this is a valuable use of the taxpayers' money because Historic Fort Steuben is an important part of downtown Steubenville and a key component in the revitalization of the area. The site is a tourist attraction that draws hundreds of visitors from all over the country each year to the city. It also provides free or low-cost educational programs, as well as free cultural events.

□

### **Memorial Building renovation Phase 3**

*American Legion Mahoning Valley Post 15*

**35 Cortland Street**

**Poland, OH 44514**

**\$75,000**

The applicant believes this is a valuable use of the taxpayers' money because it will renovate the Mahoning Valley's American Legion Post making it more energy efficient. The Post believes this will serve as a good example for the community of cost saving weatherization.

**Mooretown Civil War Monument Restoration**

***Ross Township Memorial Committee***

**128 Township Road 286**

**Richmond, OH 43944**

**\$30,000**

The applicant believes this is a valuable use of the taxpayers' money because this completed monument will tell the story of how local citizens sacrificed for their country. This monument will provide a place for all Veterans to be remembered, including those currently serving in the military.

□

## **Neffs Sanitary Sewer Project, Phase 2**

***Belmont County Commissioners***

***101 West Main Street***

***St. Clairsville, OH 43950***

**\$350,000**

The applicant believes this is a valuable use of the taxpayers' money because it will alleviate health, safety, and environmental concerns within the local community. In 2001, this site was determined to be contaminated by fecal matter and was in violation of water quality standards.

Funding would go toward cleaning up the problem.

□

## **North Ironton Sewer Separation**

***City of Ironton***

**301 South 3<sup>rd</sup> Street**

**Ironton, OH 45638**

**\$600,000**

The applicant believes this is a valuable use of the taxpayers' money because this project will allow the City to address Combined Sewer Overflows (CSO) for the wastewater collection and treatment system. This is necessary in order to meet current National Pollution Discharge Elimination System limits for the existing treatment plant and CSO's that discharge into the Ohio River. This project will allow for improved water quality of the Ohio River and its tributaries due to the ability to measure and address pollutant discharges during storm events. The project will create approximately 35 jobs during the construction phase.

**Ohio River Watershed Pollutant Reduction**

***ORSANCO***

**5735 Kellogg Avenue**

**Cincinnati, OH 45228**

**\$500,000**

The applicant believes this is a valuable use of the taxpayers' money because it will continue ORSANCO's Watershed Pollution Reduction Program that identifies, isolates and responds to

pollutants that contaminate the Ohio River Watershed (including bacteria, dioxin, PCBs, chlordane, atrazine and nutrients).

**Racine River Bank Stabilization and Potable Well Field Project**

***Village of Racine***

**405 Main Street, PO Box 399**

**Racine, OH 45771**

**\$500,000**

The applicant believes this is a valuable use of the taxpayers' money because it will protect the potable water well field and Star Mill Park for the citizens of the Village of Racine. Around Star Mill Park and Well Field, there is erosion and instability along the banks of the Ohio River. The Village of Racine has been working with the Huntington Army Corps of Engineers to determine a solution.

**Renovation and Historic Preservation of Multipurpose Community/Senior Center**

***Meigs County Council of Aging, Inc.***

**112 East Memorial Drive**□□□□□□□□□□

**Pomeroy, OH 45769**

**\$100,000**

The applicant believes this is a valuable use of the taxpayers' money because the project will meet overall community needs by providing an affordable event, meeting, gathering, and activity space for the residents of Meigs County. Meigs County is designated as a distressed region by the Appalachian Regional Commission and the renovation of this building will allow for a quality location for a variety of community events.

□

**Riverfront Park Revitalization**

***City of Ironton***

**301 South 3<sup>rd</sup> Street**

**Ironton, OH □ 45638**

**\$600,000**

The applicant believes this is a valuable use of the taxpayers' money because this project will provide cultural and recreational components to promote economic activity.

The project will create approximately 20 jobs during the construction phase.

□

## **Sanitary Sewer Lift Rehabilitation**

### ***Village of Wintersville***

**200 Grove Street**

**Wintersville, OH 43953**

**\$600,000**

The applicant believes this is a valuable use of the taxpayers' money because this project will rehabilitate four lift stations at the end of their useful life. This will protect and enhance the health and safety of the residents of Wintersville by keeping them in compliance with their *National Pollutant Discharge Elimination System* permit.

## **Storm Sewer Replacements**

***Village of Tiltonsville***

**123 Grandview Avenue**

**Tiltonsville, OH 43963**

**\$200,000**

The applicant believes this is a valuable use of the taxpayers' money because this will allow the Village to replace approximately 50 storm sewer catch basins. The project will create 8 jobs.

**Storm Sewer Replacements**

***Wells Township Trustees***

**409 Prospect Street**

**Brilliant, OH 43913**

**\$550,000**

The applicant believes this is a valuable use of the taxpayers' money because the project will reduce flooding damage to area roadways due to the poor and deteriorated condition of the several storm sewers.

This project will temporarily create 8 construction jobs.

**Veteran's Memorial Hall Restoration Fund, Inc.**

***Veteran's Memorial Hall Restoration Fund, Inc.***

**406 North 5<sup>th</sup> Street**

**Ironton, OH 45638**

**\$30,000**

The applicant believes this is a valuable use of the taxpayers' money because the project will restore the Ironton Memorial Hall.

This will allow critical services to be provided to the area veterans.

**Waterline and Fire Hydrant Replacement**

***Village of Pomeroy***

**660 East Main Street, Suite A**

**Pomeroy, OH 45769**

**\$300,000**

The applicant believes this is a valuable use of the taxpayers' money because the project will provide a gravity flow water supply to the most elevated areas in the Village. This will allow citizens to have adequate flow for fire protection and drinking water in the event of a power outage.

**WECI Smart Meter Implementation**

***Washington Electric Cooperative***

**406 Colegate Drive**

**Marietta, OH 45750**

**\$150,000**

The applicant believes this is a valuable use of the taxpayers' money because this project will install smart meters throughout Washington Electric Cooperative's service area, an area in Appalachian Ohio known for high unemployment and poverty. Smart metering will allow the Cooperative to monitor the grid in order to determine the location and scope of outages and other problems.
